

How to Order White Ink Envelope Imprinting

White ink envelope imprinting is available on some of our color envelope options. If white ink is available on the envelope, you will find the white ink selection button under the Envelopes Tab. White ink is not available in conjunction with CMYK printing.

Envelopes **Product Review - \$9.00**

How many envelopes would you like?

Select Color Printing Type
 ← **Select White Ink**

Would you like to imprint on the envelopes?

NOTE: Envelopes are not printed on HP Indigo presses, there can be a slight color variation between envelopes and cards.

No
 Yes, just on the front side using white ink. + \$12.35
 Yes, just on the back side using white ink. + \$12.35
 Yes, on both the front and back side using white ink. + \$17.95

Would you like liners for these envelopes?

Select printing on Front, Back (flap side) or both sides

File Setup for White Ink Envelope Imprinting

For best results:

- Files should be in the CMYK Color Space
- White Ink elements should be 100% K (Key Black)
- CMYK printing and white ink imprinting cannot be combined
- Fonts should be turned to outlines

Design Tips:

- On light color envelopes, white text is more readable when thicker and/or larger.
- Avoid thin script fonts when using small text.
- Artwork cannot bleed, and must be .25" away from the edge of the envelope.
- Large, solid coverage areas of white ink are not recommended.
- Download templates at www.printswellfulfillment.com/help.
